Advantix shower channel odour trap,
construction height 70 mm and up Viega
737580

Advantix shower channel, odour trap
(reconstruction model)
for Advantix shower channels,
for construction heights 70 mm and up,
drainage capacity 0.4 to 0.45 l/s,
water seal level 25 mm,
with removable odour trap,
with rotatable odour trap,
connection DN 40,
with possibility to clean the connection lines

Due to its position high above the connection pipe,
sufficient screed coverage is not possible with this
drain model.

The technical designer must consider this fact from
the start.

Advantix shower channels

Arrangements must be made for possible on-site solutions regarding the tile size and/or grouting with epoxy resin, if applicable.
